REQUEST FOR CORRECTED FILING RECEIPT

Dear Sir:

The official filing receipt has been received from the Patent Office in the  
above application.

There is an error in that the filing date of the Australian priority application is  
incorrect as shown in red on the attached copy of the filing receipt. Enclosed is a  
copy of the title page of the published PCT application which indicates that the  
Australian priority application was filed on 18 February 1998.

It is believed that no fee is due since the correction is not due to any error by  
the applicant and issuance of a corrected filing receipt is respectfully requested.

Respectfully submitted,

Richard J. Streit  
Attorney for Applicant

## FILING RECEIPT

"OC000000005556914"

Date Mailed: 11/15/2000

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the PTO processes the reply to the Notice, the PTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

## (54) Title: CHAIR INCORPORATING AIR CUSHIONS

## (57) Abstract

A chair that is suitable for supporting invalids and aged persons who are obliged to remain seated for protracted periods of time. The chair has a pivotable seat support structure (10), a pivotable back support structure (11) and a pivotable leg rest (12). An air-containing cushion (36) is secured to the seat support structure and two overlapping air-containing cushions (37 and 38) are secured to the backrest support structure. Also, compressible material sheets are employed to underlay and overlay the air-containing cushions, and an upholstery material is employed to cover the overlay. The chair is characterised in that each of the cushions comprises a bladder which is formed from a pliable, gas impermeable material and in that each bladder is charged with air in an amount not greater than 60 % of the maximum contained volume of the bladder whereby the air may freely be displaced within the bladder and, as a consequence, shaping may be imparted to the cushion to complement that of a person who occupies the chair.
